The Center for Cognitive Liberty & Ethics

Public Education, Law & Policy Center

Without the right to control your own mind,
what freedom remains?

The War on Drugs violates the human rights of
otherwise law-abiding citizens. We believe it is
time to change our way of thinking about drugs,
and time to embrace the value of respect rather
than intolerance.

Please join us in speaking out
for civil liberties of the mind!

For more information, blip to:

www.cognitiveliberty.org

Or call us toll free to have information mailed to you
